

Because of what the Sinclair Broadcast Group attempted to do regarding an illegal contribution and slant a program calling it a newsworthy item denigrating Senator John Kerry, it is necessary that the FCC reinstate the Fairness Doctrine. Some say that by abolishing the Fairness Doctrine it keeps censoring from distorting the media. It is exactly the opposite, that by keeping the Fairness Doctrine out the FCC has caused censorship to be utilized by just the select few who have managed to gain a stranglehold by media cross ownership and by media conglomerate corporate ownership. It is time to bring back The Fairness Doctrine back to insure that there is a true freedom within the electronic media and to give back the media to the public and allow the public to have it's needs, wants and interests to be fully realized.
